AFFIDAVIT OF DATE OF LOSS

On June 13, 2021, my daughter and I woke up to this banging sound. I yelled through the thin walls of our apartment to my daughter and asked if she knew what was going on, and she said, "No." I told her to stay in bed, and I went downstairs groggy, in my pajamas to find about 25 Federal Agents, many with guns pointed at me, yelling for me to put my hands up and come downstairs. The Federal Agents put me in handcuffs and raided my home and office. They arrested me in my pajamas, took me out into the parking lot of my apartment complex, for all my neighbors to see, and while I was there, I heard them grappling with my dog. They were able to put my dog in his crate, but the sounds from my dog were terrifying. Media was already on the scene, while the Feds took me to jail in my pajamas and flip flops. I was taken to jail without being asked if I needed any phone numbers from my cell phone, before they had confiscated it.

Luckily, my 16-year-old daughter was picked up and taken somewhere safe, otherwise, she would have been taken immediately to foster care. I was in jail for almost 48 hours, and it was one of the worst experiences of my life.

Meanwhile, the media had absolutely slandered me, and they continue to do so. I have been made the poster-child of this Landmark Case. A Landmark Case has several qualities: 1) It is the first of its kind, 2) The person is usually exploited and made an example of, 3) It usually ends in the worst punishment of any case like it to follow. The media reports me as a con-artist, who has taken advantage of scared and vulnerable people, convincing them to use this method over vaccines, while basically selling them snake oil and making millions. The media calls me, "a threat to society." If you search the internet, you'll find over 20 Google pages of these slanderous articles, translated into 6 different languages: please Google, "Dr. Juli Mazi," to see these

articles for yourself. My case has made all of the big television networks. I have received hundreds of messages of hate mail and several death threats. Although I have full custody of my daughter and she has lived with me full time her whole life, she decided to go live with her father in Oregon out of fear, so she wouldn't be forced to be vaccinated.

I have had to move in with family, just to get back on my feet. I have lost everything, my practice is virtually non-existent, and many of the businesses, on which my business relies, have terminated me. I have been ostracized by most of my friends, family, colleagues and patients. It has been one devastation after the next, but still I fight.

Signed Dr. Juli Mazi
